The quote ***“PREYING ON WOMEN”*** after the headlines ***“Arrested for Stalking Several Women”*** as NOT ***“dulling impact”*** or ***“mitigating the problem”***.

The word ***Prey*** as depicted in movies and novels - more ***“popular acceptance”*** and ***“the mind of the average viewer”***.

Yes - a horror show.

See DAMAGES (ECF 36) aka "*impact*".

More undeniable common sense that News 12/Altice chose reckless and agenda-driven HYPE and NOT "*dulling impact*" or "*mitigating the problem*".

Keep in mind that this woman accusing me of giving her my business card 9 months before the arrest and slander and libel never went to police after we peacefully talked, never made a complaint to store manager, and never made a complaint to me. When she went to police after News 12 was forced to take down their "*outright false*" coverage and before she went to the Westport News, police did nothing – not even an individual incident report (see **Exhibit E**) nor a call to me. How is this woman a credible and worthwhile authority on "*preying*"?
